

The Comfort-Line Multi-site WRAP Sensor Features & Benefits

ENVITEC
Way ahead in technology

Features

- Largest range of compatible sensors
- Unique pre-aligned design
- Adults, paediatrics, infants and neonates sensors
- Fully encapsulated components
- Specifically designed finger clip

- Silicone sensor and cable jacket and overmolded connectors

- Dual shielding cable
- Cable conducted by KEVLAR reinforcement fibres
- Stronger strain relief
- Cables labels
- Clearly labeled package
- No Latex
- Repairable

Benefits

- Deliveries from “one hand”
- Maximum patient comfort
- Multiple sensors application

- Easy routine cleaning and disinfecting
- Minimize ambient light interference, noise caused by patient movement, ambient light and electrical interferences.

- Longer flex time and easier disinfection

- Stronger signal integrity
- Prolongs sensors and cable life

- High durability
- Prevents unwanted usage
- Easy in identification in hospital
- No allergy
- Long term financial savings
