

Now You Have More Choices

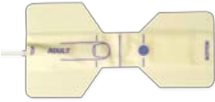

ComfortLine Disposable SpO₂ sensors range

The most versatile
"patient to patient" pulse oximeter
for spot checks and short term monitoring.

SpO₂

Medical technology
Sensors

| | Microfoam | Medaplast ⁵ |
|------------------|---|---|
| adult |  |  |
| pediatric |  |  |
| infant |  |  |
| neonatal |  |  |

Multiple applications

With the ComfortLine disposable SpO₂ sensors we are pleased to introduce multiple sensor application tapes to better meet patients needs.

The large variety of ComfortLine disposable SpO₂ sensors offers 3M Microfoam™, and Medaplast™⁵ application tapes for adult, pediatric, infant and neonate patients.

ComfortLine disposable SpO₂ sensors as patient dedicated sensors contribute to eliminate cross contamination risks and provide the flexibility and choice for many different application and user preferences.

Maximum patient comfort

The ComfortLine disposable SpO₂ sensors feature a unique design that ensures accurate sensor placement and functionality. The lightweight, ergonomic application Tapes maximize patient comfort and allow easy sensor repositioning.

The ComfortLine disposable SpO₂ sensors are Latex – free and meet industry standards for biocompatibility.

Largest range of disposable SpO₂ sensor types

EnviteC is one of few manufacturers offering the widest range of compatible SpO₂ disposable sensors with leading monitor manufacturers in the world. The advantage is obvious.

You can choose in our wide range of ComfortLine SpO₂ disposable sensors range.

Now you can leave your logistic problems behind. The SpO₂ disposable sensors you need we provide you uncomplicated from "ONE HAND".

EnviteC's ComfortLine SpO₂ disposable sensors provide proven performance, guaranteed compatibility and affordable prices.

Chart of Compatibility

| Sensor Type | P/N ¹ adult | P/N ¹ pediatric | P/N ¹ infant | P/N ¹ neonatal |
|---------------------------|------------------------|----------------------------|-------------------------|---------------------------|
| Microfoam (standard) | 45 cm cable | 45 cm cable | 90 cm cable | 90 cm cable |
| BCI | DA-2221-1 | DP-2221-2 | DI-2221-5 | DN-2221-6 |
| CSI | DA-2281-1 | DP-2281-2 | DI-2281-5 | DN-2281-6 |
| Datex | DA-2251-1 | DP-2251-2 | DI-2251-5 | DN-2251-6 |
| Datascope | DA-2291-1 | DP-2291-2 | DI-2291-5 | DN-2291-6 |
| MEK | DA-2301-1 | DP-2301-2 | DI-2301-5 | DN-2301-6 |
| Nellcor® | DA-2211-1 | DP-2211-2 | DI-2211-5 | DN-2211-6 |
| Nihon Kohden ⁴ | DA-2201-1 | DP-2201-2 | DI-2201-5 | DN-2201-6 |
| Nihon Kohden | DA-2203-1 | DP-2203-2 | DI-2203-5 | DN-2204-6 |
| Novamatrix ² | DA-2261-1 | DP-2261-2 | DI-2261-5 | DN-2261-6 |
| Ohmeda ³ | DA-2241-1 | DP-2241-2 | DI-2241-5 | DN-2241-6 |

- For Transpore or Medaplast tape, please indicate on your orders as follows: T= Transpore, e.g. DA-2221-1T, P = Medaplast, e.g. DA-2221-1P
- Requires EnviteC adapter cable P/N 2261-8 for Novamatrix monitors.
- Requires EnviteC adapter cable P/N 2241-8 for Ohmeda monitors.
- Requires EnviteC adapter cable P/N 2201-8 for Nihon Kohden monitors.
- Only for Nellcor® types
