

## 1100 Series FlashPacs

*1100 Series FlashPacs from Excilitec are ideal sources for UV-VIS-NIR applications.*

1100 Series FlashPacs from Excilitec Technologies have been designed to combine state-of-the-art circuitry and components into a packaged light source which provides microsecond-duration pulses of broadband light with exceptional arc stability. 1100 Series FlashPacs utilize the PS-1110 and PS-1120 variable output power supplies in conjunction with the appropriate Lite-Pac® trigger module to operate several types of flashlamps.

A fully shielded steel case and EMI suppression circuitry combine to diminish the radiated and conducted noise normally associated with high peak discharge currents.

FlashPacs can be ordered with a wide range of discharge capacitance values and several types of the 1100 Series flashlamps. These systems make ideal sources of pulsed light for ultraviolet-visible absorption spectroscopy, HPLC, blood analyzers, colorimetry, machine vision and ultraviolet applications.

### Key Features

- Compact
- 10 or 20 Watts average power
- High radiant intensity
- Continuous spectrum UV-VIS-NIR
- User adjustable charge voltage
- Selection of flashlamps
- Selection of discharge capacitors
- Microsecond flash duration
- Simple fiber optic coupling

### Applications

- Absorption analysis
- Immunoassay modules
- Fluorimetry
- Spectroradiometry
- Liquid and gas chromatography
- Colorimetry
- UV-VIS-NIR applications
- Machine vision

### About Excelitas Technologies

Excelitas Technologies is a global technology leader focused on delivering innovative, customized solutions to meet the lighting, detection and other high-performance technology needs of OEM customers.

From medical lighting to analytical instrumentation, clinical diagnostics, industrial, safety and security, and aerospace and defense applications, Excelitas Technologies is committed to enabling our customers' success in their specialty end-markets. Excelitas Technologies has approximately 3,000 employees in North America, Europe and Asia, serving customers across the world.
