

## PRE-CURVED SHIM OPTION

Standard “flat” gages can be mounted on curved surfaces as small as 8” diameter. On surfaces with a smaller radius of curvature, gages can be ordered pre-curved to virtually any diameter specified.

The pre-curved option is available on the following strain gage patterns:

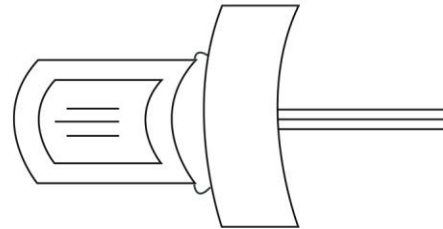

### HIGH TEMPERATURE

- HBWAH Patterns
- HBWAK Patterns
- HBWAPT Patterns
- HBWANV Patterns

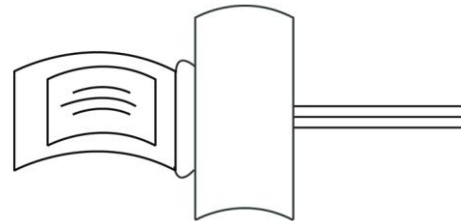

### WATERPROOF

- HBW Patterns
- HBWC Patterns
- HBWS Patterns
- HBWR Patterns

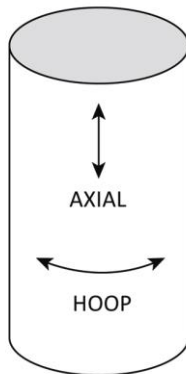

### Axial Pre-curved Gage

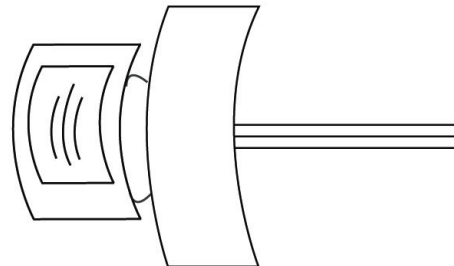

### Hoop Pre-curved Gage

### Curved Surface Diagram

### Axial Grid – Hoop Pre-curved Shim
