# Model 11 Subminiature Load Cell

#### DESCRIPTION

Model 11 (tension/compression) subminiature load cell is designed to measure load ranges from 150 g to 1000 lb. With subminiature dimensions, including diameters from .50 in to 0.75 in and height of 0.38 in, these units are easily incorporated into systems having limited space. The model achieves a non-linearity and hysteresis of 0.5 % full scale respectively and a frequency response of up to 58 kHz. A balance module is included in the load cell's lead wire cable for zero balance, and should not be removed.

#### **FEATURES**

- 150 g to 1000 lb
- mV/V output
- Subminiature design
- Single diaphragm construction

# Model 11

#### PERFORMANCE SPECIFICATIONS

| Characteristic                                  | Measure                          |  |  |
|---|----------------------------------|--|--|
| Load ranges <sup>7</sup>                        | 150 g to 1000 lb                 |  |  |
| Linearity                                       | ±0.5 % full scale                |  |  |
| Hysteresis                                      | ±0.5 % full scale                |  |  |
| Non-repeatability                               | ±0.1 % full scale                |  |  |
| Tolerance on output<br>150 g to 500 g           | 10 mV/V (nominal)                |  |  |
| Tolerance on output<br>1000 g to 1000 lb        | 2 mV/V (nominal)                 |  |  |
| Operation                                       | Tension/compression <sup>3</sup> |  |  |
| Resolution                                      | Infinite                         |  |  |
| Maximum permissible torque 150 g to 100 lb      | 4 in-lb                          |  |  |
| Maximum permissible<br>torque 250 lb to 1000 lb | 20 in-Ib                         |  |  |

#### ENVIRONMENTAL SPECIFICATIONS

| Characteristic           | Measure                             |
|--------------------------|-------------------------------------|
| Temperature, operating   | -54 °C to 121 °C [-65 °F to 250 °F] |
| Temperature, compensated | 15 °C to 71 °C [60 °F to 160 °F]    |
| Temperature effect, zero | 0.01 % full scale/°F                |
| Temperature effect, span | 0.02 % reading/°F                   |

#### **ELECTRICAL SPECIFICATIONS**

| Characteristic                                       | Measure   |
|--|---|
| Strain gage type<br>150 g to 500 g                   | Semiconductor                                       |
| Strain gage type<br>1000 g to 1000 lb                | Bonded foil   |
| Excitation (calibration)                             | 5 Vdc   |
| Insulation resistance                                | 5000 mOhm @ 50 Vdc                                  |
| Bridge resistance (toler-<br>ance) 150 g to 500 g    | 500 ohm (nominal)                                   |
| Bridge resistance (toler-<br>ance) 1000 g to 1000 lb | 350 ohm (nominal)                                   |
| Zero balance (tolerance)                             | ±3 % of full scale (nominal)                        |
| Shunt calibration data                               | Included  |
| Electrical termination (std)                         | 1,83 m [5 ft] cable with balance board <sup>4</sup> |

#### **MECHANICAL SPECIFICATIONS**

| Characteristic          | Measure                |
|-------------------------|------------------------|
| Maximum allowable load  | See table <sup>1</sup> |
| Weight                  | See table              |
| Material                | Stainless steel        |
| Deflection @ full scale | See table              |
| Natural frequency       | See table              |

#### **RANGE CODES**

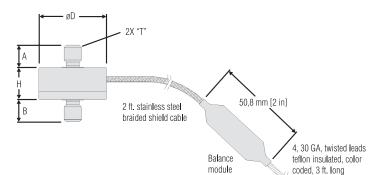

| Range codes | Range   |
|-------------|---------|
| AL          | 150 g   |
| AN          | 250 g   |
| AP          | 500 g   |
| AR          | 1000 g  |
| AT          | 5 lb    |
| AV          | 10 lb   |
| BL          | 25 lb   |
| BN          | 50 lb   |
| BR          | 100 lb  |
| CN          | 250 lb  |
| CR          | 500 lb  |
| CV          | 1000 lb |

#### WIRING CODES

| Cable | Unamplified    |
|-------|----------------|
| Red   | (+) excitation |
| Black | (-) excitation |
| Green | (-) output     |
| White | (+) output     |

#### NOTES

- 1. Allowable maximum loads maximum load to be applied without damage.<sup>2</sup>
- Without damage loading to this level will not cause excessive zero shift or performance degradation. The user must consider fatigue life for long term use and structural integrity. All structurally critical applications (overhead loading, etc.) should always be designed with safety redundant load paths.
- Standard calibration for tension/compression load cells is tension only.
- 4. A small, 2 in circuit board is included in the cable, 2 ft from the load cell. Do not remove this board.
- 5. Only for ranges greater-than-or-equal-to 1000 g.
- 6. Specifications may vary with this option.
- 7. This unit calibrated to Imperial (non-Metric) units.

Warranty. Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. The foregoing is buyer's sole remedy and is in lieu of all warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

### WARNING PERSONAL INJURY

• DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

## A WARNING MISUSE OF DOCUMENTATION

- The information presented in this catalogue is for reference only. DO NOT USE this document as product installation information.
- Complete installation, operation and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.
